

# Reading Log Directions

You must read for **AT LEAST 15** minutes each night.

You may read anything you choose. You do not need to read the same book every night. However, we encourage you to stick with a book once you have decided that it is a "just right book".

## Steps Each Night:

1. Get your book and find a distraction-free place to read.
2. Read for at least 15 minutes.
3. Record the title on your log. If you read the same book two nights in a row, you can write "same" in the title space.  
\*\*Remember, the first letter of each word in a title (except words like: a, an, is, the, of) should be capitalized.
4. Record the author on your log. If you read the same book two nights in a row, you can write "same" in the author space.  
\*\*Remember, names (first and last) should be capitalized.
5. Record the pages you read. For example, pages: 123-130. Not: 7 pages
6. Record the length of time you spent reading.

## Steps One Night:

One night of the week you need to complete an activity based on what you read. It does not matter which night you complete the activity.

1. Complete steps 1-6 above.
2. Choose an activity from the activity list.
3. Read all of the directions for the activity.
4. Look at the example and check the Reading Log Helper if there is something you don't remember.
5. Complete the activity on your log.
6. Reread what you have written. Did you do everything the directions asked? Check your spelling!!!

Your reading log is due in school on **Friday!!!!**
